Setting New Standards for Compact and Heavy Duty Performance: N-Series

The compact N-Series models with highly reliable feeding technology is easy to use.

Superior functions for high efficiency

High Speed Counting

Notes are counted accurately at a high speed of 1,700 banknotes per minute, increasing the efficiency of your operation.

Handles a Wide Variety of Currencies

This series can count notes from any country in the world as long as they are between 55 and 97mm (2.2 and 3.8 in.) in length and between 110 and 192mm (2.2 and 3.8 in.) in width.

Quiet Operation

Extremely low-noise operation is suitable for use in any office environment.

Handles Notes in Any Condition

Thanks to Billcon's unique and superior feeder mechanism, this series can smoothly count notes in any condition, from brand new to worn-out.

Error Detection

This series detects errors such as doubles, chains hand half notes, sounding an alarm and identifying the error on the display.

Various models to choose from

This series includes a standard type and a variety of special models with features such as magnetic sensing, ultraviolet sensing, and length sensing. Choose the models which are best suited to your needs.

Magnetic Sensing / Ultraviolet Sensing

Each sensing technology detects suspicious notes such as counterfeits, and alerts the operator.

Size Sensing

Counting is instantly halted if a note with a different size is found among the notes being counted. Notes of sizes different than that of the first note are detected.

Features	Model	120A	131A	132A	133A

Variety of features for quick and convenient operation

Front panel is easy to use

The Billcon N-Series is a language-free machine with icon operation buttons. User-friendly and easy-to-use function realizes productive operation.

Three counting modes suitable for different counting applications

a) Count Mode

Normal count function.

b) Add Mode

Performs an accumulation count of notes that have been counted and displays the result. This lets you confirm the total number of notes counted.

c) Batch Mode

Continually counts out the same designated batch number of notes. Accumulates the number of notes counted to display the total.
